

Population Projections 2002-2021

Launceston

These projections have been calculated by the Australian Bureau of Statistics from the medium scenario in *Population Projections 2002-2101* (ABS cat. 3222.0). The preliminary estimated resident population at 30 June 2002 is projected using the cohort-component method where the effects of births, death and migration on each age-sex group are calculated, adjusted to estimated urban-city balances. The projections reflect the underlying assumptions detailed in the report *SLA Population Projections 2002-2021*. They were prepared for the Commonwealth Department of Health and Ageing, which has allowed their release. The projections are not official projections by the ABS. Neither the ABS nor The Public Practice accept any liability for any damages arising from decisions or actions based on these population projections.
